

## DIPTANKS

QUICK SCREEN CLEANING AND RECLAIMING

### MINI DIPTANK

Blackline's Mini Diptank is perfect for printers using smaller screens. The Mini is built of the same 3/8-inch polypropylene as our large dip tank, and includes a removable lid and screen hold down.

Additionally, the Mini comes with an integrated pedestal that helps the tank hold its shape when full, and elevates it high enough to allow the spigot to drain into a standard five gallon container. The Mini fits 4 to 5 screens.

#### Size:

Height (without stand): 27"  
Height (with stand): 40"  
Width: 24"  
Depth: 8"

#### FEATURES:
