- GO dMax Printer, dMax 4 Ink and dMax 4 Film Offers the Best Solution
- Best Value Pricing in the Industry

There is more to consider when buying an affordable printer than just looking at the printer's price. Eventually, you will have to spend much more on the ink than you will on the printer. This is why it makes perfect sense to choose GO's revolutionary dMax 4 inks. Comparing the price of GO's dMax 4 inks with other leading ink manufacturers provides a clear and obvious answer: you are saving up to 90% with GO dMax 4 Dye HS inks!

GO dMax 4 HS, for High Speed, is a black dye ink formulated for those who are in a high production environment and need high speed imaging. offering very good densities in excess of 3.2 on dMax 4 film, the major feature of this ink is to image film at a much higher speed. With instant drying, little dot gain and very good density, dMax 4 HS is being used in both screen printing and traditional offset with GO's dMax 4 film.

GO's dMax 4 ink was developed for use with high resolution piezo printers. Usable with advanced printers from GO, Mutoh, EPSON, Mimaki and Roland, the ink is perfect for imaging inkjet film positives.
