

CG-2

Textile Press Wash / Recirculating Cleaner

GENERAL DESCRIPTION

CG-2 is best suited for clean-up of plastisol ink. Use this product as a screen opener, as a screen wash when saving the emulsion, and as a press wipe during continuous printing. This product is also an excellent cleaner for the removal of pallet or belt printers' adhesive.

This product can be used in a wide variety of innovative cleaning processes ranging from re-circulation machines, dip tanks, or precision immersion cleaning processes. It may also be applied manually by a brush or a hand held sprayer. CG-2 is fast drying and leaves no film or oil residue so that the clean surface is in excellent condition for tape adhesion.

ADVANTAGES

- High solvency.
- Low odor.
- Emulsion safe.
- Low vapor pressure.
- High load capacity to reduce usage.
- Used as a press wash or recirculating cleaner.
- Mesh safe.

APPLICATION

Always card excessive ink from screen. Use one of the following applications.

"PRESS WASH/SCREEN OPENER"

Step 1. Spray press wash on squeegee side of screen.

Step 2. Scrub ink with a nonabsorbent pad until liquified.

Step 3. Use rags or towels to wipe up ink residue. Re-apply to clean up ink residue in image area.

"RECIRCULATING WASH"

CG-2 can be continuously recirculated until product becomes too heavily soiled with solids. Used product may be filtered and reused. Dispose of used product in accordance with state, local, and federal regulations.

Packaging

1 gallon

5 gallon pail

30 gallon drum

55 gallon drum

Quick Tip:

To cut down on the number of rags it takes to clean a screen, use a non absorbant scrub pad to liquify the ink and a squeegee to pull all the ink to one end of the screen and wipe up with one or two rags.
