Pantone® Colors**

Sun Chemical

The PANTONE MATCHING SYSTEM® Trademark and Copyright Notice

Sun Chemical's color-mixing ink formulations for screen-process printing produce only simulations of PANTONE Colors in this color reproduction method due to differences in ink film, opacity and pigment selection. The pigment selection used in blending screen-process inks may cause metamerism. Pantone, Inc. assumes no responsibility for formula accuracy. All trademarks used herein are either the property of Sun Chemical, Pantone, Inc. or other companies. PANTONE® is a trademark of PANTONE, Inc. Portions © PANTONE, Inc., 1991.

A GUIDE TO SIMULATION OF PANTONE COLORS WITH SCREEN INKS

This formulating guide is designed to assist the screen printer in simulating PANTONE Colors as accurately as possible with screen inks. However, there are many factors such as mesh, substrate color and texture, which may affect the color achieved with a screen printing ink. It is therefore recommended that a small quantity of ink is first mixed, checked and adjusted, if necessary, prior to mixing bulk quantities.

IMPORTANT

The commitment of Sun Chemical to quality assurance ensures that every effort is made to supply inks which match the colors illustrated. However as differences in substrates and application conditions can affect the color achieved, all inks are supplied without warranty, either expressed or implied. The relevant Product Data Sheet should be consulted before using any range of inks. Due to differences in opacity, ink film and colorants used, the colors shown are simulations of the respective PANTONE-identified solid color standards. Refer to current PANTONE Color Publications for accurate color.

SunMatchTM

UV Curable Inks

**COMETAL, FLX, GEN7, GLS, MRV, PD, REV,
UMP, UVN, VAC, VYB Series**

Print Conditions

Substrate: **White**

Screen Mesh: **380/inch (150/cm.) Polyester, Plain Weave**

Squeegee: **Polyurethane 80 Durometer**

Reduction: **None**

View Conditions: **North Daylight**
