GO RIO 900X Mutoh Printer

The GO RIO 900X is a high speed 42-inch wide 4 color channel dye sublimation printer based on the reliable platform of Mutoh RJ-900. With a maximum media width of 44-inches and print width of 42-inches, the GO RIO 900X features an improved paper handling capability with the new pressure roller control which allows the user to adjust the pressure by media types. The GO RIO 900X offer a blazingly fast print speed up to 676 sqft per hour and a high resolution imaging of up to 2880 dpi. GO's RIO 900X utilizes the variable drop-on-demand piezo drive method with a 3.2 picoliters drop size and the i2 "wave" technology which eliminates print banding.

GO xPress 3040 Heat Press or GO xPress 4048 Heat Press

The GO xPress 3040 is a high performance 30" x 40" heat press system for transferring high quality images onto a variety of substrates with ease. The GO xPress 40" x 48" heat press system has double the working space for larger format needs.

GO NeoTack Dye Sub Ink

GO's NeoTack Ink redefines dye sublimation standards with its newly patented heat activated Tacky Ink Technology and new capabilities. GO's NeoTack Ink offers superior CMYK and neon color alongside new patented Tacky Ink technology.
