

GRÜNIC

G-COAT 406

SINGLE SCREEN AUTO COATING MACHINE

- Perfect reproducibility of stencil thickness for repeatable exposure times and print quality
- Fast loading/unloading without spring-loaded effort
- Compact size with low maintenance
- "Plug & Coat" requires no professional installation
- Coat both sides simultaneously, or one side only
- Up to 10 coats per side
- Adjustable speed for fine-tuning EOM
- Single hand adjustment for various screen heights
- Tool-free changing of troughs
- Swiss engineered for years of reliable use

IT'S TIME TO GO PRO

Manually coating screens is strenuous, tiring and inconsistent. The G-COAT 406 Automatic Coating Machine allows your growing shop to eliminate a key variable in the printing process, without breaking the bank. Consistent screen coating allows for consistent stencil thickness, consistent exposure times and ultimately, consistent print results.

Model	G-Coat 406s	G-Coat 406xl
List Price	\$15,995	\$19,995
Size (on stand)	42.3" W x 80.3" H x 17" D	54.1" W x 96.1" H x 17" D
